

# Latin American Training Program 2016

FROM MOLECULAR AND CELLULAR NEUROSCIENCE TO COGNITION:  
CLUES TO UNDERSTAND BRAIN DISEASES

Instituto de Investigaciones Biológicas Clemente Estable  
September 26th - October 14th

## ABOUT THE PROGRAM

The course covers a wide range of topics in the field of Neuroscience, including aspects of molecular and cellular neuroscience, cognition, behavior and different pathological conditions affecting the CNS.

## ORGANIZING COMMITTEE

Ruben Budelli  
Michel Borde  
Patricia Cassina

Federico Dajas  
Leonel Gómez  
Raúl Russo

Omar Macadar  
Ana Silva  
Cecilia Scorza

## FOREIGN FACULTY

Benedikt Berninger (GER)  
Ramón Bernabeu (ARG)  
Verónica Bisagno (ARG)  
Fabio Blandini (ITA)  
Analía Bortolozzi (SPA)  
Alfredo Cáceres (ARG)

Pablo Castillo (USA)  
Yves Frégnac (FRA)  
Hans Hofmann (USA)  
William Kristan (USA)  
Rubèn López-Vales (SPA)  
Antonia Marin-Burgin (ARG)

Stéphane Oliet (FRA)  
Mario Herrera-Marschitz (CHI)  
Alberto Pereda (USA)  
Juan Carlos Sáez (CHI)  
Daniel Tomsic (ARG)

### Mini-Symposium I: Neural Stem Cells and Adult Neurogenesis

Sat. October 1st, IIBCE

### Mini-Symposium II: Dopamine in different CNS Pathologies

Sat. October 8th, IIBCE
